

# 305 HTS

---

Galeon 305 Hts catches the eye with its thrilling, dynamic exterior and an open deck layout.

Come on board to find a generous aft sundeck that doubles as extra storage or find respite in one of two lounge areas available on the main deck. The manually operated sunroof bathes the interior in natural light – perfect for those sunny summer days.

Outside, two side decks lead to the bow area with two mattresses divided by a series of skylights.

Select the practical, elongated stern platform, to provide an extra 80cm of space for activities or a small dinghy.

Down below the yacht offers accommodation for four passengers, a compact galley and a bathroom. The saloon has an open layout where the bow rest area can be quickly transformed into a double bed, maximizing the available space during the day time.

A walk-in aft cabin offers more privacy thanks to the full sized doors separating it from the main living area.

As with all third generation Galeon yachts, plenty of natural light is provided in all areas thanks to the numerous windows and skylights. A selection of diesel and petrol engines are available with both single and twin installations.

The compact frame of the Galeon 305 is best suited for day cruising but was designed to handle even harsh weather conditions.

A sporty performance of the 305 Hts

Great visibility from the helm in all directions

A bright and welcoming cockpit of the 305 Hts

305 Hts

The bow area settee with a fold out table provides respite for the guests

Extra two berths when you need them

A compact galley comes well equipped

A compact galley comes well equipped

Bathroom with head and shower
