

GALEON

450 HTC

HARDTOP WITH  
A PURPOSE

The 450 HTC was developed along the flybridge variant and shares most of its unique features when it comes to innovations and space distribution, yet offers a sportier design.

# EXTERIOR

450 HTC

## Performance oriented design

The striking exterior is highlighted by a full-length glass roof brightening the interior and giving this model a very sporty disposition. With the flybridge overhang gone, the cockpit area can enjoy the sun with the targa roof retracted.

The recognizable design with large windows and dynamic features marks the fourth generation of Galeon yachts in collaboration with the Tony Castro Design Studio with focus placed on practicality and versatility.

## Great for socializing

Perfect proportions and improved handling of the hard-top are sure to please discerning yacht owners. The main deck holds two separate leisure areas with the bow easily accessible by the starboard sliding doors next to the helm.

Up front a large sundeck awaits the guests with a front facing seat for extra thrills. Prop-up the foldable bimini for extra privacy and protection from the elements when stationary.

*Galeon Yachts*

The 450 HTC offers a distinctive and sporty design with performance and handling to match.

Notice the huge retractable glass roof over the saloon brightening and airing the interior.

Both decks offer great visibility and plenty of natural light thanks to the abundance of windows all around - a staple of fourth generation Galeon yachts.

The cockpit area is protected by a retractable soft-top roof.

# MAIN DECK FEATURES

450 HTC

## Practicality on board

The cockpit allows for boarding from all sides thanks to the full-sized hydraulic stern platform and Beach Mode with semi-glazed panels. Drop down both sides to extend the usable space during mooring and invite your guests to activities like diving, fishing or sunbathing - exciting!

The bath platform doubles as a lift for all your water toys and allows easy access to the stern-facing grill area. Additional storage for fenders and safety equipment will help to keep things neat and organized.

## Customizable interior layout

Inside, a classic layout can be found with the rest area moved back, divided from the cockpit only by the sliding glass doors. Galley and helm station are moved forward with two or three cabins located on the lower deck.

Accommodation below holds four passengers in style, as both the mid-ship master and the forward VIP offer significant volume and storage space. For larger groups a three cabin layout with bunk beds is available. Both bathrooms down below are fitted with a head and shower with standing height.

## Beach Mode

The amazing Beach Mode makes a return in the 450 HTC allowing for a variety of activities on board.

The class-leading cockpit provides access from all sides and can be shaded by the soft-top roof above.

# MAIN DECK

# 450 HTC

Extend the cockpit area to a class-leading size with the amazing Beach Mode

A drop-down TV is fitted in the entertainment section

The port side holds a large, electric window - handy when cooking

The aft holds a hydraulic platform for water toys and a covered grill station, complete with a sink, bin, cutting board and large lockers underneath

The saloon sofa can be turned into an extra berth thanks to a drop-down table

Double helm seats with quick access to the bow thanks to a large, glass sliding door
